Farm Frites: potato specialist for over 50 years

The Farm Frites portfolio for Food Service is the result of years of experience in the segment and makes all the difference in your business.

serving happiness

Founded in 1971 by Gerrit de Bruijne, Farm Frites was born out of a passion for potato cultivation, becoming a global company over the next five decades.

Today, we grow more than 1.5 million tons of potatoes every year and deliver more than eighty types of potato chips, potato specialties, and snacks to food service providers around the world. But while the scale of our operation may have expanded, our main unit remains unchanged. To this day, we are committed to making people happy with the tastiest potato products.
